

The Right Information The Right Care

Upgrade to first-class with Hagyard ETA.

Whether shipping a broodmare to England, a show horse to France, or a stallion to Australia, let Hagyard ETA handle the details. ETA medical records services include:

- Managing quarantine requirements
- Coordinating vaccinations and blood tests
- Ensuring necessary treatments are completed
- Preparing export documents and health certifications
- Managing inspections and document endorsements with the USDA/Federal Veterinary Office
- Coordinating delivery services with contract companies
- Making sure veterinarians are in place as needed at every stage – including in-flight

...Because Hagyard Cares.
